ABOUT

Professional Profile

I have been doing HTML and web development since 2016. I am a self-organized and diligent person who is dedicated to my work and can work alone and in a team.

I love working with code, so I am sure that writing code is a creative job.

I enjoy solving interesting problems and never get tired of learning new technologies and applying them to my projects.

My experience is in the commercial development of projects of various complexity from ordinary Landing and Promo Pages to complex and highly loaded E-commerce projects and corporate websites.
